19	Cov/309986	2137301442239	Basanti Mahato	45	F	Nasal Swab	18.10.2022	Negative	9437027334	A-456 Koelnagar RKL
20	Cov/309987	2137301442256	Ritesh Mahato	20	M	Nasal Swab	18.10.2022	Negative	9437027334	A-456 Koelnagar RKL

### Prepared by:

#### Krishna Ch. Majhi

 $Note: The\ results\ relate\ only\ to\ the\ specimens\ tested\ and\ should\ be\ correlated\ with\ clinical\ findings.$ 

#### Checked and Approved by:

#### **Dr. Ashit Bhusan Xess**

डा. अशीत भूपन खेस Dr. ASHIT BHUSAN XESS Consultant Microbiologist SAIL, RSP, IGH, Rourkera

#### Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/ any other health care facility affirming requirements of the case definition/s.
- A single negative test result, particularly if this is from an upper respiratory tract specimen, does not exclude infection\*
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2 4 days after the collection of the first specimen for additional testing if required. \*
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
