COVID-19 (RT-PCR) Test Report

Date and time of reporting	21.12.2021; 04:30 P.M.						
Address of the referring facility/Hospital	Rourkela Govt. Hospital, Rourkela						
SPECIMEN DETAILS							
Date & Time of sample collection	19.12.2021; 09:00 A.M.						
Date & Time of receipt of specimen	20.12.2021; 09:30 A.M.						
Condition of specimens received / Quality on arrival	Acceptable						
REPORTING DETAILS							

Sr. No.	Sample ID	SRF ID	Patient Name	Age	Sex	Specimen type	Date of sample testing	Result 2019- nCoV	Mobile No.	Address
1	Cov/202724	2137300970492	Rumana Parween	50	F	Nasal Swab	21.12.2021	Negative	6372609228	Plant Site Rourkela
2	Cov/202725	2137300970493	Md Hasib	29	M	Nasal Swab	21.12.2021	Negative	7008229073	Plant Site Rourkela
3	Cov/203186	2137300968067	Gobardhan Mundary	37	M	Nasal Swab	21.12.2021	Negative	6380623826	Bankatola Khuntagaon
4	Cov/203187	2137300968069	Sabitri Munda	33	F	Nasal Swab	21.12.2021	Negative	7847915772	Bankotola Khuntagaon
5	Cov/203188	2137300968073	Samari Munda	57	F	Nasal Swab	21.12.2021	Negative	7655926985	Bankotola Khuntagaon

Prepared by: Checked and Approved by:

Krishna Ch. Majhi

Note: The results relate only to the specimens tested and should be correlated with clinical findings. Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/ any other health care facility affirming requirements of the case definition/s.
- A single negative test result, particularly if this is from an upper respiratory tract specimen, does not exclude infection*
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2 - 4 days after the collection of the first specimen for additional testing if required. *
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, **ICMR**
