19	Cov/316062	2137301474151	Pradeep Pattnaik	32	М	Nasal Swab	26.12.2022	Negative	8984256909	Sector 16 RKL
20	Cov/316063	2137301474152	Aman Kumar	4	М	Nasal Swab	26.12.2022	Negative	7024451692	Gopabandhu Palli RKL
21	Cov/316064	2137301474153	Miss Anahita Arghya	9	F	Nasal Swab	26.12.2022	Negative	7889423485	Reserve Police Line RKL

Prepared by:

Krishna Ch. Majhi

Note: The results relate only to the specimens tested and should be correlated with clinical findings.

Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/ any other health care facility affirming requirements of the case definition/s.
- A single negative test result, particularly if this is from an upper respiratory tract specimen, does not exclude infection*
- A positive test result is only tentative, and will be reconfirmed by retesting.

• Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2 – 4 days after the collection of the first specimen for additional testing if required. *

• A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.

• Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
