09	Cov/275187	2137301287413	Mukset Sekh	35	M	Nasal Swab	30.05.2022	Negative	7061645630	Bonai, Bonai
10	Cov/275188	2137301287414	Benudhar Patra	32	M	Nasal Swab	30.05.2022	Negative	7978651160	Bonai, Bonai
11	Cov/275189	2137301287651	Nikacius Lakra	58	M	Nasal Swab	30.05.2022	Negative	6370775632	Jalda C Block, Rourkela

Prepared by:

Krishna Ch. Majhi

Checked and Approved by:

Dr. Ashit Bhusan Xess

Note: The results relate only to the specimens tested and should be correlated with clinical findings.

Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP) any other health care facility affirming requirements of the case definition/s.
- A single negative test result, particularly if this is from an upper respiratory tract specimen, does not exclude infection*

- *A positive test result is only tentative, and will be reconfirmed by retesting.*
- *Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2 – 4 days after the collection of the first specimen for additional testing if required. **
- *A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.*
- *Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR*
