10	Cov/299948	2137301400142	Onkarmal Agarwal	65	M	Nasal Swab	30.08.2022	Negative	9040295219	Daily Market, RKL
11	Cov/299949	2137301400144	Nirmala Devi	53	F	Nasal Swab	30.08.2022	Negative	9040295219	Daily Market, RKL
12	Cov/299950	2137301400147	Sundar Mal Agarwal	55	M	Nasal Swab	30.08.2022	Negative	9437037352	Bisra Rourkela

Prepared by: Checked and Approved by:

Krishna Ch. Majhi

Note: The results relate only to the specimens tested and should be correlated with clinical findings.

Dr. Rajeev Kr. Seth

डा. राजीव कुमार सेट Dr. RAJEEV KUMAR SETH Consultant Microbiologist SAIL, RSP, IGH, Rourkela

Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/ any other health care facility affirming requirements of the case definition/s.
- A single negative test result, particularly if this is from an upper respiratory tract specimen, does not exclude infection*

- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2 4 days after the collection of the first specimen for additional testing if required. *
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
